

# US Large Cap Market Intra-year Gains and Declines vs. Calendar Year Returns

1926–2014

US Large Cap is the S&P 500 Index, provided by Standard & Poor's Index Services Group.

Past performance is not a guarantee of future results. Values change frequently and past performance may not be repeated. There is always the risk that an investor may lose money. Securities of small firms are often less liquid than those of large companies. As a result, small company stocks may fluctuate relatively more in price. Even a long-term investment approach cannot guarantee a profit. Economic, political, and issuer-specific events will cause the value of securities, and the funds that own them, to rise or fall. Because the value of investments will fluctuate, there is a risk that investors will lose money.
